Preparing for Level 2
What Do You Need?

In addition to this Teacher’s Manual, you will need the following items:

1. **Student Packet**
   The Student Packet contains:
   - *Leap into Reading* activity book
   - Phonogram Cards and Word Cards
   - Syllable tags

2. **Interactive Kit**
   The Interactive Kit contains:
   - Letter Tiles
   - Divider Cards
   - *The Basic Phonograms* CD-ROM
   - Reading Review Box (Deluxe Kit)
   - Stickers for the Progress Chart (Deluxe Kit)
   - Tote Bag (Deluxe Kit)
   (If you did not get the Reading Review Box, you will need an index card box.)

3. **Readers**
   - *What Am I?* (2nd edition)
   - *Queen Bee* (2nd edition)
   (This Teacher’s Manual must be used with the second edition of these readers, as the second editions contain additional stories.)

4. **Common Craft Materials**
   - Crayons, scissors, glue, tape, stapler, paper, pencil, sticky notes, rubber band

5. **2’ x 3’ Magnetic White Board**
   A magnetic white board is optional, but highly recommended.

6. **Optional Items**
   - Pad of sticky notes (used starting in Lesson 4)
   - Globe or world map showing the Swiss Alps (used in Lesson 8) and the location of China (used in Lesson 14)
   - Photos of the Swiss Alps (used in Lesson 8)
   - M&Ms, raisins, or chocolate chips (used in Lessons 15 and 44)
First of all, you can do this! *All About Reading* is a scripted, open-and-go program, developed for busy parents, teachers, and tutors who want to teach reading in the most effective way possible. It doesn’t require long periods of study, you don’t have to develop your own lesson plans, and you don’t have to stress over what to teach next. If you can follow basic instructions, you can teach reading with this method—because everything is laid out for you, step by step. You get solid grounding in how to teach reading, without being overwhelmed.

Your student will be actively involved in the learning process. This is a true multisensory program: your student will learn through sight, sound, and touch. Everything is taught in context, and your student applies new learning right away. Your student will be engaged in thinking, processing, comparing, and learning.

Students who use the *All About Reading* method tend to feel a sense of excitement in learning. And they should! They are learning how to think, explore, and grow in their abilities. They feel successful as they see continual progress.

There are no gaps in this program. Your student will be taught everything he or she needs to know about reading, so no guessing is required. Each new concept builds upon the previous one, and no steps are skipped.

There are five key components of reading—and our program teaches all of them thoroughly. Those components are:

- Phonological Awareness
- Phonics and Decoding
- Fluency
- Vocabulary
- Comprehension

Most importantly, *All About Reading* is committed to results. The *All About Reading* program has a very focused mission: to enable you to teach your student to read as quickly as you can, while guaranteeing retention and enjoyment. Our approach to reading develops students into confident readers who absorb and retain new information.

If you ever have a question as you are teaching, please feel free to contact us at support@allaboutlearningpress.com.
Prerequisites for Level 2

Starting Level 2 of *All About Reading* is an exciting time for you and your student. Together, you'll explore fascinating new concepts—including three-letter blends, the introduction of Silent E, new phonograms, and methods for decoding multisyllable words—and continue to establish a firm foundation for a lifetime of reading. But before your student begins Level 2, it's important to evaluate his understanding of vital prerequisite concepts.

Before starting Level 2:

- Your student should understand how to sound out words using the full blending procedure, as demonstrated in Appendix C.
- Your student should be able to read words with initial blends and words with final blends.
- Your student should be able to differentiate between vowels and consonants and understand that every syllable contains at least one vowel.
- Your student should have a basic understanding of compound words.
- Your student should be able to count syllables and understand the concept of open and closed syllable types.
- Your student should have a basic understanding of plurals.
- Your student should be comfortably familiar with all the sounds of Phonograms 1-32. Flashcards for Phonograms 1-32 are included in the Level 2 Student Packet. You can also see the list of phonograms in Appendix B and use *The Basic Phonograms* CD-ROM to hear demonstrations of the sounds. Be sure your student knows all the sounds on each card. Some phonograms just have one sound (th says /h/), while others have two or more sounds (c says /k/ and /s/). It is especially important for your student to know all the sounds of the vowels.

Level 2 of *All About Reading* builds on the information and concepts that were taught in Level 1. Be sure your student is comfortable with these concepts before beginning Level 2. In the first lesson of Level 2, important material from Level 1 is briefly reviewed, but you should also provide your student with the opportunity for in-depth review of any prerequisite concepts that he hasn't completely mastered.
Lesson 1 - Closed and Open Syllable Types

This lesson will review concepts taught in Level 1 and teach the open and closed syllable tags.

You will need:  
- Leap into Reading pages 7-18 and 171-172  
- Open and Closed syllable tags  
- Phonogram Cards 1-32  
- Progress Chart

Before You Begin

At the beginning of many of the lessons, you will find a “Before You Begin” section enclosed in a box. Review these instructions before you begin the lesson.

The actual lesson plan you will teach to your student begins after the boxed section.

We’ll start the lessons in Level 2 with a quick review of what your student learned in Level 1. If you are new to the All About Reading program, take a look at the article “Prerequisites for Level 2” on page 11.

Preview the Syllable Tags

Although closed and open syllable types were introduced in Level 1, today will be the first time that syllable tags are used. We’ll use the syllable tags throughout Level 2 to help your student recognize syllable types, which in turn will help him decode words with greater accuracy.

Why is knowing the syllable types so beneficial? Let’s say your student is reading an article, and he comes across the word craft. He doesn’t instantly recognize the word because he has never read it before. Although the word is unfamiliar, he isn’t flustered because he has a method for determining whether the letter a is long or short. He immediately focuses on the vowel. He asks himself if the letter a is in a closed syllable or an open syllable. He sees that the a is followed by a consonant, which means that it is in a closed syllable, so the vowel most likely says its short sound. He is able to decode the word craft independently and continue reading the article.

So you can see that recognizing syllable types is a valuable skill. And very soon, your student will be learning to read multisyllable words, and recognizing syllable types will become doubly important. The foundation we are building at this early stage will allow your student to quickly and confidently decode words like insect, beyond, and music simply by applying his knowledge of open and closed syllable types.

For an overview of the remaining syllable types and why they are helpful for decoding, see Appendix D.
Review Words from Level 1

“In this first activity, we’ll review words that you already know. See how accurately you can read these words.”

Feed the Anteater
Remove pages 9-13 from the Leap into Reading activity book.

Your student may color the anteater, if desired. Cut two slits on page 10 as indicated by the dotted lines. Cut apart the word strips. Take one of the word strips and weave it through the slits as indicated by the arrow. The words will appear on the front of the anteater activity, as shown below.

Pull the slip up from the back so one word is revealed at a time. Have your student read the word aloud, then pull up the slip to reveal the next word.

Continue until the anteater has “eaten” all the ants on the word strips.

Review Phonogram Cards 1-32

Review Phonogram Cards 1-32, which were taught in Level 1. Show the front of the card to your student and have him say the sound(s).

If your student could instantly recite all the sounds of the
Review (continued)

Review Plural Words

Build the word wings with the tiles.  

Cover the s with your finger.

“We say one wing...”

“...and we say two wings.”

“Wings is plural because it means more than one.”

Build the word dishes.

Point to e-s.” Words can be made plural by adding s or e-s.”

“I’ll say a word, and you say the plural word.”

“One drum, two _____. ” If necessary, prompt your student to say drums.

“One box, two _____. Boxes.

“One desk, two _____. Desks.

Review Vowels

“What are the vowels?” The vowels are a, e, i, o, u, and sometimes y.

Pull down letter tiles a, e, i, o, u, and the red y.

“What is a consonant?” Any letter that isn’t a vowel.
Review (continued)

Point to the a tile.

“Tell me the sounds of the letter a.” /æ/-/ə/~/æ/.

“Tell me the first sound of the letter a.” /æ/.

“Good. A vowel’s first sound is its short sound.”

“I will point to a vowel, and you will tell me its short sound.”

```
  a /æ/.
  e /ɛ/.
  i /ɪ/.
  o /ɔ/.
  u /ʊ/.
```

“Now tell me the long sound of each vowel.” Point to each vowel.

```
  a /ʌ/.
  e /ɛ/.
  i /ɪ/.
  o /ɔ/.
  u /ʊ/.
```

Review the First and Second Syllable Types: Closed and Open Syllables

Build the word well. [w e l l]

“What does this word say?” Well.

Point to the e.

“What does this vowel say?” /ɛ/.

“Is there anything after the e?” Yes, l-

“Good. We say that the e is closed in by the l-

“Is the vowel in this word short or long?” Short.
“Right. When a vowel is in a closed syllable, it usually says its short sound.”

Remove the last two tiles.  

“What does this new word say?”  

“Is there anything after the e now?”  

“We can say that the e is open, because there is nothing closing it in.”

“When a vowel is in an open syllable, it usually says its long sound.”

Point to the e. “What does the e say in this word?”  

“In this next activity, you'll get to decide if syllables are open or closed.”

[Image of a door open and closed]

Open or Closed?
Remove pages 15-18 from the Leap into Reading activity book.

Cut out the word cards. Your student may color the door on page 15, if desired. Cut along the dotted lines so that the door can open and shut. You can also tape or glue a small tab near the doorknob to make it easier for your student to open the door.

Mix the word cards and place them in a pile. Your student will select a card and place it under the door with the word facing up. He will then determine whether the syllable on the card is open or closed. If the syllable is closed, he will close the door. If the syllable is open, he will open the door. Then he can read the word aloud.

Continue until all the cards have been read.

New Teaching

Introduce Closed and Open Syllable Tags

Take out the closed and open syllable tags.

“The closed door represents a closed syllable.”
Lesson 1: Closed and Open Syllable Types

Build the following words. Have your student place the correct tag above the syllable.

- Open Syllable: he
- Closed Syllable: bat
- Open Syllable: so
- Closed Syllable: crash
- Closed Syllable: spot
- Open Syllable: me

Practice Fluency

Turn to pages 171-172 in the Leap into Reading activity book.

Have your student read from the Practice Sheet to review words, phrases, and sentences from Level 1.

Phrases and Sentences

Every Practice Sheet contains sections called “Phrases” and “Sentences.” The “Phrases” section includes several phrases of two to five words each. The “Sentences” section includes short phrases like Seven insects sat, and longer sentences like Seven insects sat on seven plants.

This type of practice is called phrased reading. Phrasing is important for fluency; fluent readers are able to phrase, or break text into meaningful parts.

If your student does not need practice with phrasing, feel free to skip the first two shorter phrases and just have your student read the full sentence.
Tips for Using the Practice Sheets

Over time, the Practice Sheets will help your student move from sounding out words letter by letter to instant recognition of words. This change usually happens gradually, so don’t expect perfection at first.

Here are some tips to help you get the most benefit out of the Practice Sheets:

1. **Place the sheet directly in front of your student.**

2. **Read across the page from left to right** to reinforce proper eye movements. Don’t read down the columns.

3. **Stop before your student fatigues.** You might not complete the Practice Sheets all in one day, depending on your student’s age and attention span.

4. **Would your student benefit from reviewing the Practice Sheet several times?** If so, repeat the exercise several days in a row.

5. **On the other hand, don’t overwhelm your student with too much practice.** It is important to find the right balance for your individual student. Some students desperately need the practice provided, while others (especially younger students) are better served by reading every other line, or every third line.

Fluent reading is hard work for your student! Catch him working hard and give him a few words of encouragement. Try positive words like these:

- “Very good! You are a quick learner!”
- “Hey, you got that the first time!”
- “You are doing great!”
- “That was a tough one, and you got it!”
- “You remembered that from yesterday—great!”
- “I can tell that you tried hard to figure that out.”
Read-Aloud Time  Read a Story or Poem

Read aloud to your student for twenty minutes. You can keep track of your read-alouds on the “Read-Aloud Record” found on page 7 of the Leap into Reading activity book.

Track Your Progress  Mark the Progress Chart

After each lesson has been completed, have your student color in or place a sticker over that lesson number on the chart.
Lesson 4 - Read “The Grump”

In this lesson, your student will read a short story, discuss the main character, and practice meaningful expression.

You will need: ☐ Leap into Reading page 179 ☐ Optional: sticky notes
☐ What Am I? book

Before You Begin

Preview of Story-Related Lessons

Your student will read a 100% decodable story in approximately every other lesson. Each story-related lesson includes an optional Practice Sheet so your student can “warm up” and practice words and phrases that will be encountered in the story. You can decide whether your student would benefit from warming up before reading the story.

The first time a student reads the story is called a “cold reading.” The student may read chopply, one word at a time. This is normal. The student is working very hard at decoding many of the individual words, so don’t expect smooth reading during the cold reading.

Most students benefit from “repeated readings”—that is, reading the story a second or even third time. You’ll find that during the repeated reading, your student will read more fluently and with better understanding. Since every student’s needs will vary, these repeated readings are not scheduled in the lesson plans—but be sure to make time for them!

The pre-reading discussions and activities do the following:

- Activate your student’s prior knowledge of the subject
- Draw attention to the thinking aspect of reading
- Model and encourage the active reading process: visualizing, questioning, summarizing, making predictions, and drawing conclusions

Post-reading discussions and activities include discussing the main character or conflict, story sequencing, imagining alternate endings, and relating the story to the student’s life. A complete list can be found in Appendix H.
Review

Always shuffle the Word Cards before reviewing them. By doing so, your student will practice words with a variety of patterns.

Shuffle and review the Word Cards that are behind the Review divider in your student’s Reading Review Box. If your student has difficulty reading a word, build the word with letter tiles and have your student sound it out using the procedure shown in Appendix C: Full Blending Procedure.

New Teaching

If your student is reading words with blends very easily, you can skip this Practice Sheet.

The purpose of the pre-reading discussion is to introduce new vocabulary words that will be used in the story and to activate the student’s prior knowledge about caterpillars and cocoons.

Teach Vocabulary and Activate Prior Knowledge

Show the illustration of a stinkbug on the Practice Sheet.

“There are many kinds of insects, and this particular insect is called a stinkbug. Why do you think it is called a stinkbug?” Because it smells bad.

“A stinkbug gives off a bad smell if it is touched. And they taste really nasty to predators, too. If a bird or animal accidentally bites into a stinkbug, they spit it out.”

Show the cocoon on the Practice Sheet.

“Have you ever watched a caterpillar make a cocoon? Moth caterpillars make cocoons to protect themselves from predators while they are changing into moths. Moth caterpillars spin the silk using a special gland in their mouths.”

Read the Practice Sheet for “The Grump”

Turn to page 179 in the Leap into Reading activity book.

Have your student practice reading words and phrases that will be encountered in “The Grump.”

Review the Phonogram Cards that are behind the Review divider in your student’s Reading Review Box. Show the card to your student and have him say the sound(s). If necessary, remind your student of the sound(s).
“This next story is about a caterpillar who feels grumpy. He’s in a crabby mood. But then something happens and his mood changes.”

Read “The Grump”

“Turn to page 9 in your reader and read ‘The Grump’ aloud.”

After page 15: “I wonder what *prick* means? The porcupine in the picture has quills, and those can poke or stab into something. I think that *prick* means *to poke*.”

After page 17: “I wonder if something will happen while the caterpillar takes a nap?”

Give your student encouraging feedback when the story is completed.

Discuss Main Character and Practice Meaningful Expression

“‘The Grump’ is the main character. That means that he is the most important character in the story. How does The Grump feel at the beginning of the story?” Possible answers: sad, jealous, not happy.

“If a character is sad, we can read the words with a sad voice. For example, I can read ‘I am just a grump’ with a sad voice, and anyone who hears me knows that the character is sad.” Demonstrate how to read page 11 with a sad tone of voice.

“How do you think the main character feels at the end of the story?” Possible answers: Happy, proud, excited.

“We can show that the moth is happy by reading the words with a happy voice.” Demonstrate how to read page 22 with an upbeat tone of voice.

“When do you think the main character starts to change from sad to happy?” Answers can vary from page 18 through 22.

“The next time you read the story, try changing your voice from sad to happy and see how it sounds.”

Lesson 4: Read “The Grump”
**Read-Aloud Time**  
**Read a Story or Poem**

Read aloud to your student for twenty minutes.

During your read-aloud times, model how you sometimes stop and think about what you are reading. You want your student to understand that good readers think about what they are reading, and that they should expect the text to make sense. Reading is like a conversation between the author and the reader.

**Track Your Progress**  
**Mark the Progress Chart**

Have your student mark Lesson 4 on the Progress Chart.
Lesson 5 - Syllable Division Rules 1 and 2

This lesson will review Syllable Division Rule 1 from Level 1 and teach Syllable Division Rule 2.

You will need:  
- Leap into Reading pages 29-31 and 180-183  
- Word Cards 21-30

Before You Begin

Overview of Syllable Division Rule 2

Since most words in the English language have more than one syllable, we need to give your student a strategy for decoding multisyllable words. The most effective strategy is to divide words into syllables and then decode each syllable.

Your student already knows how to decode short closed-syllable words, such as nap and kin, so now we are going to transfer this skill to reading multisyllable words containing two closed syllables, such as napkin. Here’s how we’ll do this:

1. Build a word. Point to the two vowels. 
   ![VCCV pattern]

2. Determine how many consonants are between the vowels. (There are two.)

3. When there are two consonants between the vowels, we usually divide the word between the two consonants.
   \[
   \text{nap} \quad \text{kin}
   \]

Now, using previous knowledge of closed syllables, it’s easy to read the word. For a listing of all the syllable division rules, see Appendix G.

Resist the temptation to create a shortcut by locating just the two consonants and dividing between them instead of first locating the two vowels. This may seem more efficient at first glance, but locating the vowels first is an important habit that we’ll build upon in Lessons 9 and 10 for reasons that will become obvious in those later lessons.
Review

Review the Phonogram Cards that are behind the Review divider in your student’s Reading Review Box. Show the card to your student and have him say the sound(s). If necessary, remind your student of the sound(s).

Shuffle and review the Word Cards that are behind the Review divider in your student’s Reading Review Box. If your student has difficulty reading a word, build the word with letter tiles and have your student sound it out using the procedure shown in Appendix C: Full Blending Procedure.

Build the following words with letter tiles. Have your student label the words with the proper syllable tags and then read the words.

**sly**

Open Syllable

| s | l | y |

**twist**

Closed Syllable

| t | w | i | s | t |

**Review Syllable Division Rule #1**

Build the word *anthill*.  

| a | n | t | h | i | l | l |

“This is a compound word. As you know, a compound word has two smaller words in it. What are the two smaller words in this word?” *Ant, hill.*

“Good. Divide *anthill* into two syllables.” *Student divides the word between ant and hill.*

“Right. This is the first rule for dividing words into syllables: divide compound words into two smaller words. Now you are ready to learn the second rule for dividing words into syllables.”

**New Teaching**

**Teach Syllable Division Rule #2**

Build the word *dentist*.  

| d | e | n | t | i | s | t |

“The easiest way to read longer words is to divide them into syllables and then read each syllable.”
New Teaching
(continued)

“First, we locate the vowels.” Point to the e and the i.

dentist

“How many consonants do you see between the two vowels?” Two.

Point to the n and the t. “When there are two consonants between the vowels, divide between the consonants, like this.”

dentist

“Now it is easy to read the word. What does the first syllable say?” Den.

“And the second syllable says...?” Tist.

Push the two syllables back together. “What is the word?” Dentist.

Using letter tiles, have your student practice dividing these words into syllables until it becomes easy:

contest insect invent upset muffin napkin

Two-syllable words usually have the accent on the first syllable. All the words in this activity are accented on the first syllable except upset.

Play “Guess What I’m Saying”

“I will say two syllables, and you will guess what word I am saying: pic...nic.” Student says picnic at normal conversational speed.

Repeat this activity, using the following words. Be sure to pause between the syllables as you say them.

pup...pet pil...grim rab...bit hap...pen mag...net

Introduce the Schwa Sound

Build the word problem. problem

“Divide this word into syllables.” Student divides the word between the b and the l.

problem

“Read each syllable.” Prob-lem.

“This word says...?” Problem.
Point to the e. “When we say the word quickly, the sound of the e gets muffled. The word sounds like /prob-lum/ in normal speech.”

“When you sound out a two-syllable word like this, you can get very close to the correct pronunciation. Sound out each syllable, and then say the syllables together like a normal word, just like you did a minute ago.”

**Complete Activity Sheet**

**Be a Lumberjack**
Remove pages 29-31 from the *Leap into Reading* activity book.

Cut out the logs and the ax.

Have your student pretend to chop each multisyllable word with the ax, dividing the word on the log between the two syllables.

The student should read each portion of the word separately, and then read the entire word.

**Practice Reading Words**

Have your student practice reading the words on Word Cards 21-28.

File the Word Cards behind the Review divider of the Reading Review Box.
Teach Two Leap Words: are and have

Show Word Card 29 to your student.

“This word is *are*, as in *My shoes are brown*. The *a* and the *r* work together to say /ar/, and the *e* isn't pronounced—it’s a Silent E. You haven’t learned about *ar* and Silent E yet, but this is a common word that you will see often.”

“What is this word?” *Are.*

Show Word Card 30 to your student.

“This word is *have*, as in *I have six fish*. The *e* isn’t pronounced—it’s a Silent E.”

Cover the *e* with your finger. “What would this word say without the *e*?” *Have.*

“Right! When we read this word, we don’t pronounce the *e*.”

Review these words several times today and then file them behind the Review divider.

Practice Fluency

Turn to pages 180-183 in the *Leap into Reading* activity book.

Have your student read from the Practice Sheets.
New Teaching
(continued)

How Much Time?
How much time should you spend on the Practice Sheets? Only you can be the judge of that, since the answer is different for every student. Some students may not need all the practice provided here. Other students may benefit from rereading the sheets multiple times over a period of a week.

The goal in Level 2 is to keep making progress, not to achieve perfection.

Read-Aloud Time

Read a Story or Poem
Read aloud to your student for twenty minutes.

Track Your Progress

Mark the Progress Chart
Have your student mark Lesson 5 on the Progress Chart.
Lesson 27 - Long I or O before Two Consonants

This lesson will teach that when the letters i or o are followed by two consonants, the vowels can say their long sounds.

You will need:  □ Leap into Reading pages 95-98 and 234-237
□ Word Cards 131-140

Before You Begin

Preview the Lesson

There are four ways to spell long vowel sounds. Your student has already learned three of these ways, and today he will learn the fourth way. Here is an overview of the four ways:

1. A vowel can be long when it is placed at the end of a syllable, as in item and open.

2. Silent E can make a vowel long, as in spine and home.

3. A long vowel sound can be made using a vowel team, such as ee in the word sheep. More vowel teams representing long vowel sounds, such as oa in road, will be taught in Level 3.

4. Vowels i and o can be long before two consonants, as in child and hold.

Today’s lesson will concentrate on number 4. Even though words like colt and mind are closed syllables, the vowels are long, not short. Your student will learn that this is a special pattern: the letters i and o followed by two consonants may say their long vowel sound.
Review

Review the Phonogram Cards that are behind the Review divider in your student’s Reading Review Box. Show the card to your student and have him say the sound(s). If necessary, remind your student of the sound(s).

Shuffle and review the Word Cards that are behind the Review divider in your student’s Reading Review Box. If your student has difficulty reading a word, build the word with letter tiles and have your student sound it out using the procedure shown in Appendix C: Full Blending Procedure.

Build the following words with letter tiles. Have your student label the words with syllable tags and read.

three                      stick

Build the following words with letter tiles. Have your student label the words with syllable tags and read.

New Teaching

Teach I or O Followed by Two Consonants

“Today you’re going to learn a new pattern for one-syllable words.”

Build the word land.   [land]

“What syllable type is this?” Closed.

“In a closed syllable, is the vowel usually long or short?” Short.

“Right. In most cases, the vowel is short in a closed syllable. What does this word say?” Land.

Build the word find.   [find]

“This is also a closed syllable, but in this case the į is long. What is this word?” Find.

“Good. In one-syllable words, if the letter į is followed by two consonants, the į is often long.”
New Teaching (continued)

Leave the word *find* on the table. Next to it, build the word *gold*.

![Gold image]

“The vowel in this word is also long. What does this word say?” *Gold.*

“Good. In one-syllable words, if the letter *o* is followed by two consonants, the *o* is often long.”

“We call this the Find Gold Rule for one-syllable words. The Find Gold Rule says that when *i* and *o* are followed by two consonants, they often say their long sounds.”

**Play “Change the Word”**

Leave the word *gold* on the board.

![Gold image]

“I’m going to change the first part of this word.”

![Changed gold image]

“What does this new word say?” *Fold.*

Continue to change one tile at a time to form the following words. Each time, have your student sound out the new word.

fold → cold → told
child → wild → mild

“Is the vowel in *mild* long or short?” *Long.*

“How many consonants are after the *i*?” *Two consonants.*

Return the letter tiles to their place in the alphabet.
New Teaching
(continued)

Complete Activity Sheet

Find Gold
Remove pages 95–98 from the Leap into Reading activity book.

Cut out the word cards and the pan for the gold.

Place the rectangular word cards along the river with the words facing down.

Your student should select a gold card from the river and flip it over to reveal the word. Encourage your student to read the word aloud. If he reads the word correctly, he may add the gold card to his pan. If he reads the word incorrectly, the gold card can be returned to the river for another try.

Continue until your student has all the “gold” in his pan.

Practice Reading Words

Have your student practice reading the words on Word Cards 131–139.

File the Word Cards behind the Review divider of the Reading Review Box.
New Teaching (continued)

Teach a Leap Word: who

Show Word Card 140 to your student.

“This word is who, as in Who is it? This is a Leap Word because the wh doesn’t say what we expect it to. It says /h/ instead of /hw/. The o says /ʊ/, which is the third sound of o.”

Review this word several times today and then file it behind the Review divider.

Practice Fluency

Turn to pages 234-237 in the Leap into Reading activity book.

Have your student read from the Practice Sheets.

Vocabulary Affects Fluency

If you’ve ever picked up a book outside of your expertise (such as a book on musical theory if you aren’t a musician), then you’ve encountered unfamiliar vocabulary words that you don’t understand. It would be difficult for you to read these books fluently because you wouldn’t know what many of the words mean or how to pronounce them.

In the same way, it is difficult for your student to read fluently if he doesn’t understand what the words mean. You can help your student develop a large listening vocabulary by reading aloud from a wide selection of books and discussing unfamiliar words.
Read-Aloud Time  Read a Story or Poem

Read aloud to your student for twenty minutes.

Track Your Progress  Mark the Progress Chart

Have your student mark Lesson 27 on the Progress Chart.
Lesson 38 - Soft G

This lesson will teach words containing soft g.

You will need: ☐ Leap into Reading pages 133-138 and 263-266
☑ Word Cards 191-200

Before You Begin

Preview the Second Sound of G

The letter g has two sounds:

- Hard g as in garden
- Soft g as in gem

Up until now, your student has been reading words that contain hard g. G is hard as long as it is not followed by an e, i, or y.

Today your student will learn that g is soft when followed by an e, i, or y
most of the time. G is soft in over seven hundred words, including stage, hinge, and general. However, there are a few common words in which the g remains hard even in front of e, i, or y: get, girl, give, gift, and begin.

Review

It’s time to review the cards behind the Mastered dividers to ensure they stay fresh in your student’s mind.

Shuffle the cards behind both Mastered dividers and choose a selection for review.

Build the following words with letter tiles. Have your student divide the words into syllables, label with syllable tags, and read.

<table>
<thead>
<tr>
<th>pencil</th>
<th>farmer</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
<tr>
<td>p e n</td>
<td>f a r</td>
</tr>
<tr>
<td>c i l</td>
<td>m e r</td>
</tr>
</tbody>
</table>

Lesson 38: Soft G
New Teaching

Teach the Two Sounds of G

Pull down the g tile.

“Tell me the two sounds of this letter.” /g/-/j/.

Pull down the letter tiles e, i, and y and arrange them next to the g tile.

“If g is followed by an e, i, or y, it usually says /j/.”

Show the g tile visiting the letters e, i, and y one at a time. “Followed by an e, g usually says /j/. Followed by an i, g usually says /j/. Followed by a y, g usually says /j/.

Build the word page.

“What sound does the g say in this word?” /j/.

“Why?” Because of the e.

“Good. What does this word say?” Page.

Build the word gem.

“What sound does the g say in this word?” /j/.

“Why?” Because of the e.

“What does this word say?” Gem.

Replace the m tile with a t.

“What is this word?” Get.

“So you see that g usually says /j/ before an e, i, or y, but not always. Sometimes it says /g/.”
Pull down the letter tiles a, o, u, l, and r, and arrange them as follows:

```
  a
g o
u
l
r
```

“If g is before any letter that isn’t e, i, or y, it says /g/.” Show the g tile visiting the letters one at a time.

“In front of the a, it says /g/.” Repeat for letters o, u, l, and r.

When your student understands this concept, mix up the e, i, and y with the a, o, u, l, and r.

“In front of which letters can g say /j/?” E, i, or y.

Continue the activity until it has been mastered by your student.

Teach Words with Soft G

Build the word huge and place the Name Game syllable tag over it.

```
Name Game Syllable

huge
```

Demonstrate your thought process as you decode the word.

“This word ends in Silent E, so I know that the u will probably be long. And we just learned that when g is followed by an e, i, or y, it usually says /j/. I will sound out this word.

Touch the h and say /h/. huge

Touch the u and say /u/. huge
Touch the g and say /j/.  

Now go back to the beginning of the word. Slide your finger under the letters h-u-g-e and say huge slowly.

Finally, read the word huge at a normal pace, as we do when we speak.

Using the same procedure for blending, have your student sound out the word stage.

Emphasize the Second Job of Silent E

Leave the word stage on the board.

“Silent E has two jobs in this word: it makes the a long, and it makes the g soft.”

Build the word hinge.

“In some words, Silent E has one job, and in other words, it has two. In the word hinge, Silent E has just one job. What is it?” Help your student see that the job of Silent E is to make the g say /j/.

Teach the Terms Hard G and Soft G

Pull down the g tile.

“When g says /j/, we say that the g is a soft g.”

“When g says /g/, we say that the g is a hard g.”

“Tell me the hard sound of g.” /g/.

“Tell me the soft sound of g.” /j/.
New Teaching (continued)

Complete Activity Sheet

Gerbil Cage
Remove pages 133-138 from the *Leap into Reading* activity book.

Cut out the word cards and place them in a pile with the words facing up. Your student should choose a word card and read it aloud. He should then turn the card over to add the section of tube to his gerbil cage. Continue until all the cards have been read and the gerbil cage is complete. Your student can then pretend to run his gerbil through the maze.

A different cage can be constructed each time your student plays.

Practice Reading Words

Have your student practice reading the words on Word Cards 191-199.

- cage
- huge
- large
- magic
- age
- page
- change
- danger
- orange

File the Word Cards behind the Review divider of the Reading Review Box.
Teach a Leap Word: *pumpkin*

Show Word Card 200 to your student.

Cover up *kin* with your finger. “What does the first part of this word say?” *Pump.*

Uncover *kin.* “What does the second part of the word say?” *Kin.*

“Together they say *pumpkin,* as in *Pumpkins are orange.* This word follows a syllable division rule that you haven’t learned yet, so that’s why it is a Leap Word.”

Review this word several times today and then file it behind the Review divider.

**Practice Fluency**

Turn to pages 263-266 in the *Leap into Reading* activity book.

Have your student read from the Practice Sheets.

**Read-Aloud Time**  
**Read a Story or Poem**

Read aloud to your student for twenty minutes.
Track Your Progress

Mark the Progress Chart

Have your student mark Lesson 38 on the Progress Chart.

</table>
APPENDIX B
Phonograms Taught in Levels 1 and 2

Phonograms are letters or letter combinations that represent a single sound. For example, the letter b represents the sound /b/, as in bat. The letter combination sh represents the sound /sh/, as in ship.
